

CRUCIAL SERIES FOR PENNANT

Cincinnati and New York Playing Three Double-Headers

WITH FORMER LEADING BY 4 1/2 GAMES

National League Championship May Be Decided in Next Few Days

New York, Aug. 15.—With only four and a half games separating them for first place in the National league pennant race, the Cincinnati Reds and the New York Giants met to-day in the last of a series of three doubleheaders in as many days at the Polo grounds. The result of to-day's games is expected to have an important bearing on the outcome of the league race. A double win for the western team will give it a commanding lead, while a similar success by the New York club will put it within striking distance of the league leaders. An even break would leave the teams in virtually the same position as at the start of the series.

In the four games played in the series each club has won two games, three of which were closely contested, resulting in small scores. By heavy hitting in the second game of yesterday, however, New York defeated Cincinnati 9 to 3 after the first game had resulted in a 2 to 1 victory for the home team in 11 innings. Barnes and Benton probably will be the pitching selections for New York to-day, with Fisher and Eller for Cincinnati.

REINSTATE CARL MAYES.

New York Pitcher Placed in Good Standing by Directors.

New York, Aug. 15.—Three members of the board of directors of the American league, constituting a majority of the board, ordered Pitcher Carl Mayes reinstated at a special meeting here yesterday, thus nullifying the action of President B. B. Johnson in suspending him. The directors, after reviewing the case, passed resolutions declaring that the "leged suspension was without authority and against the best interests of and detrimental to baseball," and forbade Johnson from taking similar action against any other player in the American league "without a hearing and an opportunity to be heard given to the player and the club involved for any alleged offense."

FINE U.S. ARMY BEING BUILT

Already 100,000 Recruits Secured, Gen. March Announces

OVER 68,000 WERE RE-ENLISTED MEN

Recruits Are of an Exceptionally High Class, Out for Betterment

Washington, D. C., Aug. 15.—"The first hundred thousand" of recruits have been secured for the permanent regular army, General March, chief of staff, announced to-day and of these more than 68,000 were re-enlistments. It is estimated that an average of five of every 100 men discharged from the temporary forces since the recruiting campaign began have decided to rejoin the army.

For the Second Time in Less Than Four Months Trolley Service Ceased—The Company Will Abide by War Labor Board's Decision.

Trolley traffic ceased at midnight last night when a strike of 2,000 motormen and conductors of the Pittsburg Railways company went into effect. ARMENIANS FEARFUL.

That They Will Starve If British are Withdrawn.

Paris, Aug. 14.—The peace conference is awaiting anxiously the decision of Great Britain as to the withdrawal of British troops from the Caucasus which, it is expected, will begin to move homeward to-morrow.

Colonel William Haskell, U. S. A., allied high commissions in Armenia, has telegraphed the supreme council that Armenia undoubtedly will starve and the people be exterminated if the British soldiers are not detained there until others are sent. The supreme council, however, is unable to provide troops. None of the large powers is willing to send soldiers there, and consequently, no action has been taken.

The relief supplies gathered at Tiflis, Batoum, and Erivan probably will be lost if the British withdraw and the investigation to be made by Major General R. A. Roberts, on behalf of the American government, will be of little use.

Clothes

For All Kinds of Young Men

Anywhere from 16 to 60 you see young men nowadays; and the young man under 20 wants clothes different from those of the young man over 40.

Hart Schaffner & Marx

are a great help to us in designing suits and overcoats to meet these requirements. Special fabrics, special designing, new ideas of style that the man of 20 can use and the man of 50 better not.

For very young men, the "Prep" styles are right; youthful in appearance and manly, too.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to

starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by E. A. Drown & Co. in Barre and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a marvellous transformation with me. I gained 15 pounds and never before felt so well."

CAUTION.—Although bitro-phosphate is guaranteed for relieving nervousness, sleeplessness and general weakness, it should not be used by anyone who does not desire to put on flesh.
